

PONY CLUB AUSTRALIA NATIONAL CHAMPIONSHIPS MOUNTED GAMES

1ST - 5TH OCTOBER 2023

VENUE Benalla Sports & Equestrian Centre, Benalla, Victoria

> HOSTED BY Pony Club WA

INFORMATION GUIDE

MISSION STATEMENT

Pony Club WA to host the Mounted Games component of the Petstock Pony Club National Championships in a safe and cost-efficient manner at a location that maximizes the opportunity for every state to be able to send teams.

The Pony Club WA in conjunction with the State Active Riding Committee is organizing the satellite hub of the Petstock Pony Club National Championships at Benalla Sports and Equestrian Centre at Benalla over 3 days.

Benalla is located in Victoria approximately 2.5 hours (232 km) from Werribee Equestrian Centre. It is located on the Hume Highway which is the main highway between Sydney and Melbourne. It is about the same size as Northam in WA.

It is a fairly central location for Eastern States Teams to travel to.

Benalla Sports and Equestrian Centre boasts some exceptional facilities including a covered, floodlit all-weather sand arena, making it one of the best community-owned venues in the state.

A CORRECT TROT-UP

There are two main situations when you might need to trot your horse up – for your vet or for the judge in a showing class. Trotting your horse up properly for your vet is important because doing it incorrectly could affect his way of going and not give your vet a clear picture. At a show, a good trot-up will show your horse off at his absolute best. To master a good trot up...

• Make sure you stay level with your horse's shoulder and away from his side so the vet or judge has a good view of him.

- Look up and ahead to where you're going to help keep you straight and your horse moving forward positively.
- When you ask your horse to trot, he should react promptly, and the trot should be active not too slow or too hurried.
- Hold the lead rope or reins so there's a little slack, and make sure his head and neck are straight so that his head movement isn't affected. This is particularly important when trotting him up for the vet because they'll want to see whether there is any head nod.
- Walk away and back first before asking him to do it in trot. Use this time to get him moving forward and listening to you.
- When it's time to turn, bring your horse back to walk, turn him away from you, then make sure he's straight before asking him to trot back to the judge or vet.
